STAT

1. [] Sam Crosby telephoned requesting the dates of 6 and 7 February be canceled and suggested the 9th and 10th but indicated these were tentative dates. I checked the Director's calendar and it looked clear. However, when [] placed it on the Director's calendar, he called indicating he did not wish to set up additional tentative dates. He agreed to take the 9th and 10th if they were firm. Mr. Crosby was advised of this, and in an appropriate way I explained the Director's scheduling problems. He said that these dates are not firm since there are still no committees organized. Therefore, it was left with Crosby that if they called Monday or Tuesday requesting the 9th and 10th we would do everything possible to meet the dates but at this time we could make no commitments. Crosby seemed to understand and said he would mention this to Mr. Mahon.
